

MMP Certification Process

On successful completion of all 8 modules of the Maintenance Management Professional Education and Certification Program you must complete the Application for Certification and send it along with your transcripts (obtainable from the teaching institution(s) from which you took the modules) to the address on the bottom of the form.

Note, there is a place on the application for your PEMAC member number. If you are not a member of PEMAC in good standing, please submit the member application form complete with payment information and confirm your member number before applying for MMP status.

On receipt of the Application form complete with a valid member number and attached transcripts, the Registrar will validate the documentation and will issue an MMP Certificate.

With receipt of this certificate you are entitled to use the Maintenance Management Professional (MMP) designation. As an association-issued designation the continued use of MMP is only valid while you are a member of PEMAC in Good Standing and therefore may not be used if you cease to be a member or lose your Good Standing within the association.

A National Register of active MMP recipients is kept on file and is published on the PEMAC website and from time to time may be published in PEMAC and related literature.

The Application for Certification Form and the Membership Application Form can be found under the 'MMP' tab on the PEMAC website at www.pemac.org.

Should you have any questions or concerns regarding the certification process please do not hesitate to contact me.
