Maintenance Management Awards

Sergio Guy Memorial Award

This prestigious award recognizes the efforts of an individual who has made significant contributions to both our profession and our Association. The Sergio Guy Memorial Award has acknowledged the outstanding achievements of many professionals – maintenance managers, professional writers, educators, and consultants – all of whom have exemplified excellence in promoting and representing our Association, the profession, and our members.

MMP Capstone Award - Technical & Business Process Focus

The Capstone Awards were initiated by the PEMAC Board of Directors to encourage and recognize excellence in MMP program participation as demonstrated by excellence in the Capstone project.

Maintenance Team of the Year Award - Small & Large Organization

An award divided into two categories, awarding teams' excellence in maintenance management in both Large and Small organisations. This considers the different environment in which organisations of different sizes operate in and how that impacts the maintenance professionals within them.

Asset Management Awards

Asset Management Leadership Award

PEMAC is pleased to announce the Asset Management Leadership Award that will honour a PEMAC member who has contributed significantly to advancing the asset management profession in Canada. This award will recognize great contributions to the field of Asset Management as a whole, and celebrates an individual who inspires the advancement of improved Asset Management in Canada.

AMP Capstone Award

The AMP Capstone Awards encourage and recognize excellence in the Asset Management Professional (AMP) program final project, the Capstone. The successful recipients of this award are invited to Maintrain to present their project to those in attendance.

Asset Management Achievement Award

This award celebrates teams that recognize what success looks like in their organization, and have made substantial steps towards that goal through the betterment of Asset Management practices. These organizations may not have reached their goal yet but have the core fundamentals in place and are making progress through the development of elements such as a policy, a framework, an AM plan, an asset register, amp, a risk management program, or a preventative maintenance program for example.
