

## Plant Maintenance Mechanical Planner

### Permanent, full-time opportunity with Hamilton Water in Hamilton, ON

Are you a certified Millwright with related industrial maintenance experience? Can you work effectively and get results in a fast-paced, team-oriented maintenance environment? If such is the case, bring your skills and experience to the City of Hamilton.

Reporting to the Superintendent of Plant Maintenance, you'll be accountable for planning and scheduling activities related to work being done by the mechanical team. As a Mechanical Planner, you'll also provide support and backup to the Electrical and Instrumentation Planner, as necessary, and may be required to support the maintenance teams in other ways during emergency or abnormal situations.

This would be an exciting career opportunity for a self-motivated, confident tradesperson who can handle the full range of mechanical maintenance activities – from making field inspections and determining the scope of work, to identifying the trades, equipment and time required to carry out work, from ensuring that work is scheduled efficiently, to creating and maintaining KPIs for maintenance planning and scheduling.

### Your qualifications as a Plant Maintenance Mechanical Planner include:

- A valid Ontario Trade Certificate as a Millwright 433A, with extensive Industrial Maintenance experience performing the duties of a licensed Millwright.
- Experience in Water and Wastewater, preferred.
- Fundamental understanding of electrical, instrumentation and industrial engineering principles.
- Demonstrated knowledge in at least one of these areas: Preventive Maintenance (PM), Predictive Maintenance (PdM), Reliability Centered Maintenance (RCM) and Total Productive Maintenance (TPM).
- Extensive experience with rigging, repair and replacement of pumps, motors, piping and conveyor systems.
- Demonstrated experience with mechanical maintenance planning, scheduling and coordination.
- Practical computer experience within a Computerized Maintenance Management System (CMMS), preferably Infor-EAM.
- Membership or eligibility for membership in OACETT as a Certified Engineering Technologist (C.E.T.) or Certified Technician (C.Tech.), preferred.
- Membership or willingness to pursue membership/certification in PEMAC as a Maintenance Management Professional (MMP).
- Certification as a Steamfitter 307A, an asset.
- Proficiency using the Microsoft Office Suite, particularly Excel.
- Solid knowledge of Maintenance, Repair and Overhaul (MRO).
- Demonstrated ability to read and interpret engineering drawings and O&M manuals.
- Demonstrated ability to work in a team environment.
- Strong analytical and problem-solving skills.
- Excellent communication (verbal and written) and interpersonal skills.
- Inventory control, and procurement and purchasing experience, an asset.
- Knowledge of the Occupational Health and Safety Act and its regulations.
- Ability to travel to various work locations in a timely and efficient manner.
- Possession of, and ability to maintain, a Class "G" or better Driver's Licence valid in the Province of Ontario.

This permanent, full-time position offers a wage range of \$33.950 to \$38.580 per hour (based on a 40-hour work week schedule).
