

## Program Manager – Asset Management

Government of Yukon -> Highways & Public Works – HPW TPB Planning Units

Location: Whitehorse, YT

Requisition: #31577

Salary: \$101,068 - \$117,433 per annum

Closing date: January 8, 2022

**This competition is open to all candidates who meet the above noted Admissibility. A hiring preference will apply for qualified candidates of Canadian Aboriginal ancestry, with a priority for qualified Yukon First Nation candidates. This initiative is in support of Yukon government's goal for a representative public service.**

**For more information on the hiring preference, visit [www.yukon.ca/hiring-preference](http://www.yukon.ca/hiring-preference).**

**This posting is to fill 1 permanent, full-time position, working 75 hours bi-weekly.**

### Highways and Public Works – who we are

Employees at Highways and Public Works are responsible for ensuring safe and efficient public highways, airstrips, buildings, and information systems. Our collective **vision** is to make a difference in the lives of Yukoners. At all levels of our organization, we **value** leadership, innovation, teamwork, and keeping our people safe. Our **priorities** are to be client focused, to support our people, to build sustainably, and to advance reconciliation throughout Yukon.

### This opportunity...

The Transportation Planning Branch applies a systematic approach to the planning and management of our assets. We streamline and improve systems to allow the Transportation Division to deliver programs more efficiently and effectively. We pride ourselves on our innovative and solution-focused culture and approach. The Transportation Asset Management Unit is a group of professionals tasked with understanding our transportation network's assets and identifying what resources and activities are required in order to support the network and ensure it keeps the territory moving. Click this [link](https://yukon.ca/en/employment/transportation-planning-branch) < <https://yukon.ca/en/employment/transportation-planning-branch> > to read more about our branch and the awesome initiatives we are involved in!

Reporting to the Manager of Transportation Asset Management, this position involves responsibility for leading a team of technical staff to develop, implement and manage the Transportation Division's roadside safety infrastructure asset management program. This program aims to increase sight lines and right-of-way visibility, improve lane delineation, reduce hazards in the right-of-way, and install and maintain roadside barriers along our highways.

### Essential Qualifications (what we're looking for in your resume):

- University degree in engineering;
- Registration as a Professional Engineer;
- Experience in asset management, planning and/or design and construction;
- Experience in project management, including managing contracts and budgets, and supervising technical and professional staff and consultants.

If your resume shows education, training, and/or experience equivalent to the essential qualifications listed above, your application may be equally considered.

---

**Desired Knowledge, Skills and Suitability (what candidates will be assessed on):**

- Ability to collaborate within a team environment as well as work independently;
- Excellent verbal and written communications skills;
- Excellent research, analytical and problem-solving skills;
- Ability to plan, develop, implement and evaluate projects;
- Ability to establish strong and effective working relationships with senior management, and other stakeholders;
- Ability to develop, communicate and evaluate lifecycle management strategies for various public infrastructure asset classes;
- Ability to plan, organize and lead the development of asset management plans and medium- to long-term capital development plans.

**Conditions of Employment**

Must possess and maintain a valid Yukon Class 5 driver's licence. Currently registered or eligible for registration with Engineers Yukon as a Professional Engineer.

**Job Requirements**

Travel and mandatory use of personal protective equipment.
