

Asset Management Manitoba Summit (AMMS) 2020

GOLD SPONSOR

For over 70 years, Lakeside's mission has been to provide innovative solutions, local accessibility, and consistent engineering practices and support to our customers' process automation challenges.

Lakeside is a member of the Emerson Impact Partner Network – the highest value channel partner and the singular point of contact for leveraging Emerson's integrated solutions, technology and expertise in Ontario (excluding the Ottawa Valley), Manitoba, and the Kivalliq region of Nunavut.

Recognized as a market leader, we deliver complete automation solutions to a wide range of industries, optimizing process efficiency, ensuring reliability and up-time, while maintaining and prioritizing a high standard of safety and customer satisfaction. Our capabilities in process management, industrial automation, utilities expertise, and digital transformation enable us to solve our customers' toughest challenges, keep their operations running safer, and deliver improved and measurable business results.

Our solutions range from devices that measure and relay diverse physical and chemical conditions, devices that control flow of materials, networks that transmit event-related information, to process control systems that collect information and trigger necessary actions to ensure continued operations. Lakeside operates across eight facilities in Canada and is recognized as a Platinum Member of Canada's Best Managed Companies since 2002.
