BECOMING A CERTIFIED ASSET MANAGEMENT ASSESSOR COURSE

CONNECT. LEARN. CONTRIBUTE.

www.pemac.org
“Becoming a Certified Asset Management Assessor” has been authorized by PEMAC and developed by PEMAC volunteers who are practicing professionals. It will benefit you even if you are not planning on taking the CAMA exam.

The Certified Asset Management Assessor (CAMA) certification establishes an individual’s global credentials in asset management knowledge. CAMA certification is granted upon successful completion of the 2 hour exam and demonstration of relevant experience.

BECOMING A CERTIFIED ASSET MANAGEMENT ASSESSOR COURSE

This 15 hour course is designed to give practitioners who have at least 5 years of experience in physical asset management an efficient overview of the recommended preparation material for the CAMA Exam. The course provides insight into: ISO 5500x framework of documents, the GFMAM Asset Management Landscape, and the GFMAM Competency Specification which provides a framework for what ISO 5500x asset management systems assessors should know about asset management. It is ideal for engineering, business management, project management, consulting, and operations professionals who are responsible for physical asset management.
