NETWORKING OPPORTUNITIES

SHARED KNOWLEDGE

Gain access to a robust shared Body of Knowledge learning library that contains a collection of resources, developed and shared by PEMAC members and contributors focused on asset management and maintenance management. No matter what subject you are interested in, you will be able to find relevant learning resources to expand your understanding through articles, papers, presentations, discussion forums as well as regularly scheduled live webcasts on a variety of insightful topics.

ANNUAL PROFESSIONAL DEVELOPMENT CONFERENCE

CHAPTER ACTIVITIES

Through participation at Chapter events you can meet people who do a similar job to you for another company or in another industry and get a fresh view point on challenges you are currently facing. In addition, if you are looking for work or looking for new team members, Chapter events are a great way to connect with people and companies who have a view to professionalism.

Since 2004 MainTrain has been the source for professional development for reliability, maintenance and physical asset managers in every industry and private and public sector businesses that invest capital in equipment and facilities. MainTrain gathers global leading experts, practitioners

and professionals for knowledge transfer, education and networking.

Every business demands world class practices in the management of their producing assets. For these reasons, more than ever before, maintenance and physical asset management matters! Canada's largest annual maintenance and physical asset management conference exhibition and networking event, MainTrain gathers leading experts, practitioners and professionals from across Canada and around the world to share their insights and strategies that will support professionals and their organizations. The learning outcomes from MainTrain enhance knowledge and help attendees deliver a measurable and positive impact to their company's bottom line and competitive position.

EDUCATION & CERTIFICATION

PEMAC offers two certifications to recognize professionalism in maintenance management and asset management: Maintenance Management Professional, Certified Asset Management Professional. A third certification, Certified Asset Management Assessor, is offered in association with the World Partners in Asset Management.

MAINTENANCE MANAGEMENT PROFESSIONAL

Leads to MMP Professional Designation

The Maintenance Management Professional (MMP) program provides training and certification to those aspiring to, or already in, maintenance management or supervisory positions enabling them to align their work with the Asset Management strategies and plans of the organization. For organizations that have not adopted a formal Asset Management policy or strategy, MMPs are well positioned to champion that development with their senior management and have the tactical knowledge to deliver results. Certified MMPs are qualified to provide cost effective management of a business's existing physical assets and to provide valuable insight into the decision making processes for future acquisitions. Graduates have the knowledge and skills to drive improvements in business processes, operational productivity, cost reductions, safety, environmental compliance, increased economic life of assets, return on investment and effective communication between departments.

-  **MODULE 1** (15hrs)
An Integrated Strategy for Maintenance Management
