

Shift Superintendent – Maintenance

Regina, SK

Canada Post is committed to providing innovative physical and electronic delivery solutions that create value for our customers, our employees and all Canadians, and every member of our team plays a key role in making it happen.

If you're a skilled supervisor committed to employee health and safety, and looking to advance your career, this is where you want to be. As **Superintendent Maintenance, Shift**, you will lead a team of Canada Post technicians and specialists accountable for maintaining mail handling and processing equipment in optimal condition and operating to approved standards to meet operational and legislated requirements.

YOUR DUTIES

As a Shift Superintendent – Maintenance, you will:

- Coordinate the implementation of all maintenance programs for mail processing and handling equipment so that the equipment meets set performance standards (KPIs) and legislated requirements.
- Achieve optimum equipment performance through the execution of preventative maintenance programs to meet maintenance plans, schedules and standards.
- Liaise with the Superintendent Maintenance, Scheduling, to adjust the schedule, provide feedback regarding work completed or not completed, and perform scheduling and planning (corrective work) duties, as required.
- Oversee the execution of corrective and breakdown maintenance activities to ensure they are carried out safely, correctly, and efficiently in order to maximize equipment availability.
- Promote and maintain a safe working environment by providing appropriate training, documentation, personal protective equipment, tools and established procedures, ensuring safety is at the forefront of all work practices, and encouraging ideas and initiative among team members.
- Assign qualified employees to effectively execute programs and repairs.
- Carry out the full range of staff management functions at the first management level.
- Ensure that labour and material resources are adequate to execute maintenance programs and repairs.
- Provide up-to-date technical reference material for the use of plant maintenance staff.
- Ensure, through succession planning and training, a continuing development of competent staff.
- Ensure that work orders, logs and other documentation are complete, accurate and submitted as per policy.
- Provide technical support to implement and monitor approved projects.
- Manage maintenance and support contracts with external contractors.
- Interface between Canada Post and facilities management.
- Manage contracted building services, as required.

YOUR QUALIFICATIONS

You bring a successful track record to the role of Superintendent Maintenance, Shift:

- A post-secondary diploma or degree, preferably in a mechanical, electrical or electronics field.
- Experience leading a team in an industrial maintenance environment (preferably unionized), primarily working on inspection and repair of material handling systems.
- Demonstrated commitment to employee health and safety.
- Knowledge of health and safety best practices and regulations.
- Exceptional organizational skills and commitment to quality.
- Excellent negotiation, communication, conflict resolution, relationship management, coaching and teamwork skills.
- Proficiency in English.
