FOR IMMEDIATE RELEASE

First ever PEMAC “Maintenance Team of the Year“ Award Announced

MISSISSAUGA, (October 9, 2018)

The PEMAC Board of Directors is pleased to announce that a team from the Cameco Port Hope Conversion Facility is first ever winner of the “Maintenance Team of the Year” award for a large facility. From 2011 to present this team has undertaken a continuous improvement initiative and is being acknowledged by this award for their exemplary efforts in Maintenance Management.

The PEMAC Awards committee was impressed by the nomination which detailed the team’s efforts and results to date. The awards committee sent representatives, Jim Reyes-Picknell and Andrew Jardine, to visit the facility to verify the progress described in the nomination. Their expectations were exceeded. This team's example stands as a source of inspiration to other organizations to achieve similar results and benefits by undertaking similar journeys.
