FOR IMMEDIATE RELEASE

PEMAC’s Asset Management Professional Certificate Program is Moving to a New Home at Northern Lakes College

MISSISSAUGA, (February 15, 2019) – PEMAC announces that it’s Asset Management Professional (AMP) education and certificate program will be moving to a new home.

Beginning Spring 2019, public offerings of the AMP program will be transitioning, course by course, from its current home at Humber College to Northern Lakes College. Registration is now open for course one that starts April 8, 2019 at Northern Lakes College and runs through June 16 in an asynchronous online format.

PEMAC’s AMP Certificate Program was launched in the fall of 2014 and introduces participants to the latest in strategic asset management thinking from recognized global organizations. Participants develop the capacity to engage others and build their knowledge and skills in key subject areas such as risk management, knowledge management (enterprise database systems), while being introduced to tools that will enable strategic decision making at each stage of the asset lifecycle.

The program is designed for mid-career professionals from a variety of backgrounds (IT, engineering and business management) who have responsibility for managing decisions with respect to the core life cycle functions such as design, selection, operation, and maintenance of an organization’s assets. Consisting of six courses that are delivered online through asynchronous delivery, each course is led by experienced instructors who are most typically practicing professionals.

The transition schedule will allow professionals who have started the program with Humber College the opportunity to complete the program with Humber College, while allowing new professionals into the program to begin with Northern Lakes College. Successful completion of the six courses leads to the professional designation, CAMP. PEMAC will accept course transcripts from either institution when considering applicants for the CAMP certification.

	Humber College has the option to offer the following courses	Northern Lakes College has the option to offer the following courses
Jan 2019	1, 2, 3, 4, 5, 6	
Apr 2019	2, 3, 4, 5, 6	1
Sept 2019	3, 4, 5, 6	1, 2
Jan 2020	4, 5, 6	1, 2, 3
Apr 2020	5, 6	1, 2, 3, 4
Sept 2020	6	1, 2, 3, 4, 5
Jan 2021		1, 2, 3, 4, 5, 6
